-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 01 April 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### DETAILED ACTION

1. Claims 16-19 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on November 4, 2004.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1-6, 8-13, 15, and 20-27 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Kuramochi et al(US 6361403). Kuramochi et al('403) discloses a polishing body for polishing semiconductors comprising all of the subject matter set forth in Applicant's claims above. Note in particular, example 1 at column 11, lines 6-18 which discloses spray-drying of an aqueous slurry, and molding of the dried residue powder. With regard to independent claims 9, and 12 reciting a cross-linkable polymer, it is disclosed at column 4, lines 47-50 that various resins may be used as the matrix material. Crosslinking of the polymer during curing would be an inherent result of the curing process.

4. Claims 1-6, 8-13, 15, and 20-27 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Kuramochi et al(US 6077581). Kuramochi et al('581) discloses a polishing body for polishing semiconductors comprising all of the subject matter set forth in Applicant's claims above. Note in particular, example 4 at column 13, lines 15-41

wherein spray-drying of an aqueous slurry, and molding of the dried residue powder is disclosed. With regard to independent claims 9, and 12 reciting a cross-linkable polymer, it is disclosed that an acrylic resin binder may be used as the matrix material. Crosslinking of the polymer during curing would be an inherent result of the curing process.

5. Claims 7, and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 28-34 are allowed.

7. Applicant's arguments filed April 1, 2005 have been fully considered but they are not persuasive. Kuramochi et al('403) and Kuramochi et al('581) disclose polishing bodies formed by spray-drying of an aqueous slurry, and molding of the dried residue powder. Applicant's new limitation of the polishing part comprising an abrasive dispersed in a matrix material is deemed to be met by the disclosures of Kuramochi et al.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

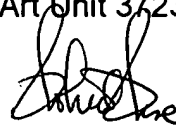

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3723

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
